INVESTOR IN PEOPLE

Diversification, environmental enhancement and sustainability – Can you benefit from the creation of any of the following?

Working Wetlands

- ❖ Control of farmyard run off and slurry
- ❖ Reedbeds & water purification
- ❖ Contain effluent by planting
- ❖ Meet water quality legislation at outflows

Bio Engineering

- ❖ Aggressive erosion prevention & repair
- ❖ Willow spiling supply & installation
- ❖ Riverbank reinforcement
- ❖ Reduce field loss

River margins and stream edge planting

- ❖ Natural wildlife haven
- ❖ Encourage natural biodiversity
- ❖ Livestock exclusion
- ❖ Fish habitat creation

Hedgerows & livestock shelter

- ❖ Create new hedgerows
- ❖ Regenerate existing hedges
- ❖ Create wildlife habitats
- ❖ Generate shelter for crops & stock

Commercial, productive woodland

- ❖ Establish multipurpose forestry
- ❖ Timber production
- ❖ Biomass, wood energy and SRC
- ❖ Forestry restocking

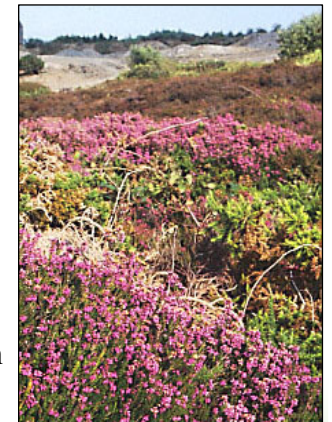

Amenity and recreational woodland

- ❖ Maintaining native broadleaves
- ❖ Improve walks and public access
- ❖ A recreation facility
- ❖ Urban fringe planting

Upland & Heathland restoration

- ❖ Native tree planting
- ❖ Heather planting / restoration
- ❖ Gamebird habitat creation

Contact Cheviot Trees for assistance with planning, design, grant application & implementation - tailored solutions, or a full contracting service available if required.
